

Gan-Aleph Program

This foundations program for **our youngest students** meets for **1.5 hours a week on Sunday mornings**, plus eight special family activities and regular videos sent home for enriching activities. Alongside the warm, nurturing environment created by our teachers, we incorporate movement, art, music and stories with various specialists into the educational program to enrich and enliven the learning.

The main educational goals of Gan and Aleph are Shabbat and holiday home rituals and observances, Hebrew language acquisition and reading readiness, and an introduction to prayer, blessings and synagogue life.
