New Procedures for the Mi Shebeirach List

In an effort to better serve the needs of our congregation, we are changing the way we maintain and update our Mi Shebeirach list (the list of people who have requested prayers for healing). To make sure our list is as current as possible, we are building a new list from scratch. So even if you have previously asked that a name be placed on this list, we ask that you call or email and request that person's name be included on the list. Moving forward, names will be kept on the list for four weeks and then removed unless you, or a member of our Clergy team specifically request that they remain longer.

To have a name added to the list or to update the status of the person named, please call or email Laurie Albert in the Clergy office at 610-667-5000 x111 or lalbert@harziontemple.org.

INNOVATION UPDATE FROM ISRAEL IDEAS

Israeli Tech Helps Mexican Rescuers Locate Quake Victims

Radio-wave technology developed by Israeli firm Camero-Tech that can “see” through solid walls is helping rescue workers in Mexico search through rubble for buried victims. Amir Beeri, the CEO of the firm, said “We got reports from our representative in Mexico that our technology is being used there by the rescue workers and he sent us TV images that show our systems in use.”

The company’s “sense-through-the-wall” imaging technology uses radio waves to map the layout of areas that are blocked by bricks or any other material. The radio waves penetrate the rubble and get signals back from within. These signals are then analyzed by powerful algorithms which are able to detect in real time if there is movement or breathing within the destruction, indicating there is someone alive that needs to be rescued. The system also allows users to pinpoint the location of the person or people trapped within the building, even if they are unconscious, Beeri said.
