Israel's Glide Hatches First Camera For Apple Watch

It's a groundbreaking advance for the wearables field... So how did a small Israeli company get to design CMRA, the Apple Watch camera band accessory? "When we started playing with the first line of smart watches in 2013, we realized that we were close to the future of communication but it needed a camera to come to fruition," says Jonathan Caras, cofounder and COO of Glide, whose free video messaging app is installed on millions of Smartphones and devices, including Apple Watch and Android Wear. Introduced in 2014, Apple Watch has sold some 15 million units, yet it hadn't replaced the Smartphone as a primary-use device. Apple came to agree with Glide's assessment that a camera accessory could be game-changing. "When Apple heard that we were working on a camera-band accessory, they rolled out the red carpet to help us construct CMRA with an Apple feel and look," says Caras.

Transportation to Har Zion Temple

"Oh, if I'd only known she/he needed a ride to Har Zion."

"Oh, I would have been there but I couldn't get a ride."

We are hearing these statements more and more – and would like to help our congregants who would like to attend services, meetings and programs.

Do you need a ride...To Services? To daytime or evening meetings and/or programs?

Can you provide an occasional ride?

What areas would be convenient for you? What Services, meetings, or programs do you usually attend (morning/afternoon/evening)?

Please contact Nanci Goldman, NanciG22@aol.com or 610-664-7987.
