Jacob's Deathbed Finale - Family Drama and Trauma at the End of Life

The deathbed story of Jacob, at the end of Genesis, offers us wisdom for encountering the reality of death and loss. From Jacob's story we learn to deal with death and the complex family dynamics surrounding dying and mourning with integrity and equanimity.

Simcha Raphael, Ph.D. is Founding Director of DA'AT Institute for Death Awareness, Advocacy and Training. Adjunct Professor in Religion at LaSalle University, and a psychotherapist and spiritual director,

he is a Fellow of Rabbis Without Borders network, and author of the ground-breaking classic Jewish Views of the Afterlife. His website is www.daatinstitute.net

Siddur Study with Dr. Sara H. Cohen
Wednesdays, December 4, 11 at 11 AM
There will be no class on November 27

An in-depth, multi-faceted study of our Shabbat liturgy. By “unpacking” the many layers of meaning and commentary, by delving into the history, background and lives of the great intellectual giants who wrote our prayers, we gain a keener understanding of their meaning and of the values and ideals inherent in them. Through this sharper knowledge and understanding, we discover what we stand for as Jews. In prior years, we covered the *Birchot HaShachar*, *P’sukei D’Zimrah*, the *Shma* and its Blessings and the *Amidah (Shmoneh Esrai)*. We begin this semester with *Kreeat HaTorah* (Torah Reading service) and Haftarah, the Musaf service (additional service) and the concluding prayers for Shabbat morning. Join us, learn and study with us so that you can connect more readily and easily to our heritage and keep our legacy alive and thriving.

BRCA Founder Outreach Study

Women and men with a *BRCA* gene mutation have a greater risk of developing several types of cancer. Most of those at risk do not know that they carry a *BRCA* mutation.

The BFOR study provides genetic testing for common *BRCA* mutations for women and men of Ashkenazi (Eastern European) Jewish ancestry, age 25 or older, in four U.S. metropolitan areas. 95% of American Jews are Ashkenazi.

INNOVATION UPDATE FROM ISRAEL IDEAS

Revolutionary Patch Keeps Brain Safe after Cranial Surgery

If you're ever unfortunate enough to require brain surgery, Israeli startup Nurami Medical has got you covered – literally. The Haifa-based company has developed a patch made of synthetic, biodegradable nanofibers meant to be affixed to the dura mater – the protective membrane underneath the skull that keeps the brain and spinal cord safe – after cranial neurosurgery.

Brain surgery requires cutting through the dura, so a “bandage” of some sort must be placed to protect against bacteria, accelerate healing and keep cerebral spinal fluid from leaking. Nurami’s nanofiber patches mimic the dura mater in a way that’s safer and less expensive than the animal collagen-based products currently used for post-brain surgery recovery, said the company’s CEO Hannoch Marksheid.
