## INNOVATION UPDATE FROM ISRAEL IDEAS Game Changing Sports Technologies From Israel

Technology today is enriching every aspect of the global sports experience – from practicing, playing and analyzing performance to betting, fan engagement, broadcasting and marketing. Israeli innovations are fast winning fans among the big leagues in the United States and United Kingdom.

“The intersection between the passion for sports and the passion for technological innovation is a ball of fire,” says Lee Aviram Shoshany, manager of digital media technologies for the nonprofit Israel Export and International Cooperation Institute. The institute and the Economy Ministry recently took 13 startups on a weeklong “road show” to present their products to executives from the NBA (basketball), NFL (football), NHL (ice hockey), and MLB (baseball) and to individual teams, venture capitalists and companies such as Twitter, HTC and Sony.

# Engaging Jerusalem

## “If I forget thee O Jerusalem...”

Jerusalem has captured the imagination of Jews for centuries. It's the direction to which we pray, it's the aspiration of centuries of dreamers, it holds hope and promise for many.

In honor of the 50th anniversary of the Six Day War, Har Zion will engage our kehillah in a celebration of our eternal city of hope. Over the next eight months, we will explore the diverse role Jerusalem has played for us as a people from biblical times to present day.

Each month has been assigned a verb that will guide our exploration. January will be Studying Jerusalem. Throughout January we will offer opportunities both within our regular class schedule and through special programs to explore Jerusalem in all of her diversity, struggles, and glory.
