### INNOVATION UPDATE FROM ISRAEL IDEAS

#### An App That Helps You Plan Your Meals To Avoid Diabetes

DayTwo is the world's first health-improvement and disease-prevention solution based on the groundbreaking gut microbiome research of Prof. Eran Segal and Dr. Eran Elinav from the Weizmann Institute of Science. It is available in Israel and soon in the United States

Specific foods and food combinations affect each individual's blood-sugar level differently, according to a clinical study carried out in Israel. The gut microbiome – bacteria residing in everyone's intestines – interacts with the digestive and immune systems, and its diversity holds certain clues. DayTwo and the Weizmann researchers developed an algorithm for predicting individualized blood-glucose response to thousands of different foods and meals based on gut microbiome information and other personal parameters. In 1883, archaeological and treasure hunter Moses Wilhelm Shapira claimed to have discovered the world's oldest Bible scroll. Denounced as fake by a French archaeologist, it seemed that was the end of the story until investigators reopened the case in 1947, wondering whether Shapira had discovered the first Dead Sea Scroll decades before anyone else.

### Conversation with ALEXANDRA ZAPRUDER

#### 26 Seconds: A Personal History of the Zapruder Film

#### Wednesday, March 29, 7 PM

*Author Alexandra Zapruder in conversation with Norman Einhorn*

On November 22, 1963, Abraham Zapruder stood in Dealey Plaza eagerly awaiting the arrival of President Kennedy's motorcade. He had brought along his personal movie camera, hoping to capture a home video of the once-in-a-lifetime moment. Instead, his 26-second home movie captured President Kennedy's assassination and thrust Zapruder – and his family – into the national spotlight for decades. Now Abraham's granddaughter, Alexandra Zapruder, tells the complete story of the Zapruder film for the first time.
