INNOVATION UPDATE FROM ISRAEL IDEAS

As weather is getting worse, forecasting just got better

Ever since the days of Noah, floods have been devastating to humanity. And despite the human and technological advancements made since biblical times, weather disasters are likely to wreak more and more havoc as our climate warms. In 2018 alone, floods killed more than 10,000 people around the globe. Forecasting the weather in an accurate and timely manner is key to fighting these terrible disasters, but it's a challenge of huge magnitude. Just think of all the data needed to correctly predict the weather, with phenomena across the planet all interacting and interchanging to create unique weather conditions at one particular spot at any given time.

Upcoming Classes

Har Zion After Dark

Wednesday, May 29

6:30-7:30 PM (early session)

Dr. Michael Schatz

Part 2: History of Jewish Philadelphia: Jewish Neighborhoods in Philadelphia

In this series we will trace the patterns of migration of the children of Jewish immigrants as they moved out of South Philadelphia toward Strawberry Mansion, West Philly, Wynnefield, and Logan. Then we will delve into the "Third Settlement"- neighborhoods close to the edge of the city that were built up after the second World War, and the Jewish communities that formed in West Oak Lane, Northeast Philadelphia, and more. Jews moved slowly to the suburbs in Philadelphia, only settling in Cheltenham and parts of Lower Merion in significant numbers before 1970. We'll look at the evolution of these communities, and then finish with a discussion of the new realities of outer ring suburbanization, resettlement of the city, and the impact of immigration from the former Soviet Union, the resurgence of Orthodox Judaism, and Jewish rise to prominence in politics and philanthropy. We will also devote a session to the history of Jewish Education in Philadelphia.

7:45-8:45 PM (later session)
