9:15 PM Shabbat ends

*Rabbi Baker's visit is co-sponsored by the Trustees.*

### **Mi Shebeirach**

*Mi shebeirach avoteinu*

*M'kor hab'racha l'imoteinu*

May the source of strength,  
Who blessed the ones before us,  
Help us find the courage to make our  
lives a blessing,  
and let us say, Amen.

*Mi shebeirach imoteinu*

*M'kor habrachah l'avoteinu*

Bless those in need of healing with  
*r'fuah sh'leimah*,  
The renewal of body, the renewal of spirit,  
And let us say, Amen

8:11 PM CANDLE LIGHTING

### THIS SUMMER – GIVE A D'VAR TORAH AT SHABBAT SERVICES...

Why are Bar/Bat Mitzvah students the only Har Zion Temple members who share thoughts on the weekly Torah portion or Haftarah with the community? Each Shabbat from **June 10-11 through August 26-27**, we encourage all of our members to step forward and prepare three to five minutes of Torah or Haftarah commentary to present at Friday night or Saturday morning services. Please contact Rabbi Allen [ruallen@harziontemple.org](mailto:ruallen@harziontemple.org) to select a date. All of our clergy are more than ready to help you prepare and present your D'var Torah. It is a wonderful opportunity to grow Jewishly, and the congregation looks forward to hearing your insights.

# תהיינה נפשותיהם צרורות בצרור החיים:

May their souls be bound  
up in the bond of life.

*The following yahrzeits will be observed during the coming week.*

Beryl Davidoff  
Elizabeth Engelbach

## INNOVATION UPDATE FROM

### Looking For The Skin's Fountain Of Youth

Pollutants, UV rays, radiation and other stressors in the environment assault our skin all day long. When these substances filter into the body through our pores, they can create free radicals. Oxidative stress caused by excessive free radicals is responsible for a host of skin conditions, including inflammatory diseases, pigment disorders, wrinkles and some types of skin cancer. It can also damage internal organs and cells that produce essential lipids, proteins and DNA.

According to report in the journal *Cosmetics*, an Israeli PHD student in collaboration with researchers from Technion-Israel Institute of Technology came up with an innovative nanotechnology that could be the way to activate the body's natural defense against oxidative damage to the skin as well as internal organs. This nanotechnology boosts the body's natural defense mechanisms against oxidative stress, helping to produce antioxidant enzymes to maintain the skin's proper balance, "The approach of using the body's own defense system is very effective. We showed that activation of the body's defense system with the aid of a unique delivery system is feasible, and may leverage dermal cure," said Hebrew University researcher Maya Ben-Yehuda Greenwald. **Live a story. Give a story. Donate blood.**

This summer, when you give blood you could give someone time to make their own stories - watching fireworks, having a picnic, rooting for the home team.

What if you could give someone a summer of stories? With the Red Cross, you can.

[redcrossblood.org/summer](http://redcrossblood.org/summer)

## **American Red Cross Blood Drive**
