GIVE A D'VAR TORAH THIS SUMMER

Why are Bar/Bat Mitzvah students the only Har Zion Temple members to share thoughts on the weekly Torah (or Haftarah) portion with the community? We invite all members to contact Rabbi Allen (ruallen@harziontemple.org) to select a date to present three to five minutes of commentary for that week's Torah (or Haftarah) portion. All of our clergy are more than ready to help you prepare and present! Take advantage of this opportunity to develop stronger ties with our other Members and strengthen your Judaism at the same time. Most Shabbat services **until August 27** are currently available for D'var Torah, but dates are going quickly, so sign up today!

INNOVATION UPDATE FROM Printing Human Tissue From Stem Cells

Technology that can print a human organ – is it science fiction? Israel's Nano Dimension, which makes 3D printers, has taken the first step towards turning big-screen fantasy into everyday reality. Through a collaboration with another Israeli company, biotechnology firm Accellta, Nano Dimension has been able to mix human stem cells into its 3D printer ink. When expelled through the more than 1,000 tiny nozzles of a Nano Dimension DragonFly 3D printer, the ink can form into human tissue. The technology is still at the proof-of-concept stage and going from simple tissue to a full organ is a daunting and uncharted process. Nevertheless, the possibilities for saving lives by "printing" a new liver or lung are amazing.
