New this Fall...Talmud with Rabbi Sarra Lev, PhD**Monday, September 17, 10:30 AM and regular class begins on October 8**

Open to everyone, this class asks the overarching question – what is the Talmud trying to tell us about shame/shaming?

Mi Shebeirach

Mi shebeirach avoteinu
M'kor hab'racha l'imoteinu
May the source of strength,
Who blessed the ones before us,
Help us find the courage to make our
lives a blessing, and let us say, Amen.

Mi shebeirach imoteinu
M'kor habrachah l'avoteinu
Bless those in need of healing with
r'fuah sh'leimah,
The renewal of body, the renewal of spirit,
And let us say, Amen.

Did You Lose a Tallit?

Over the past few years, Har Zion Temple has accumulated quite a collection of misplaced *tallitot*. They are currently hanging in the coat room near the main entrance waiting to be claimed. If you are missing your *tallit*, please take a look to see if we have it. We hope to return all of them to their rightful owners by the High Holidays.

INNOVATION UPDATE FROM ISRAEL IDEAS

Keep Your Fridge, Bulbs, Thermostats and Other Devices Safe from Hackers

In the HBO comedy "Silicon Valley," one of the main characters hacks into an Internet-connected refrigerator, replacing the normal functionality of the fridge's screen with something decidedly less cool. When the manufacturer's managers are confronted by the security breach, they punt responsibility. "We don't have any experience with the Internet. We make refrigerators!" they exclaim.

The scene is played for laughs but the possibility that the increasingly ubiquitous world of Internet of Things (IoT) devices – connected refrigerators, smart light bulbs, networked security cameras, mobile-controlled thermostats and other devices that "talk" to each other – can be taken over by bad guys has fueled a thriving new subset of the cyber security industry.
