Did You Lose a Tallit?

Over the past few years, Har Zion Temple has accumulated quite a collection of misplaced *tallitot*. They are currently hanging in the coat room near the main entrance waiting to be claimed. If you are missing your *tallit*, please take a look to see if we have it. We hope to return all of them to their rightful owners by the High Holidays.

INNOVATION UPDATE FROM ISRAEL IDEAS OCD Treatment Gets FDA Green Light for U.S. Marketing

OCD is a common, chronic disorder in which the sufferer has uncontrollable, recurring thoughts and feels compelled to repeat certain behaviors over and over. It is typically treated with medication, psychotherapy or a combination of the two. According to the National Institute of Mental Health, about 1 percent of U.S. adults had OCD in the past year.

Although most patients respond to treatment, some continue to experience symptoms, the FDA said in a statement. As a result, the U.S. Food and Drug Administration gave the green light to U.S. marketing of a noninvasive medical device developed by Jerusalem-based Brainsway Ltd. to treat obsessive-compulsive disorder.
