New Procedures for the Mi Shebeirach List

In an effort to better serve the needs of our congregation, we are changing the way we maintain and update our Mi Shebeirach list (the list of people who have requested prayers for healing). To make sure our list is as current as possible, we are building a new list from scratch. Even if you have previously asked that a name be placed on this list, we ask that you contact Laurie and request that person's name be included on the list. Moving forward, names will be kept on the list for four weeks and then removed unless you, or a member of our Clergy specifically request that they remain longer. To have a name added to the list or to update the status of the person named, please call or email Laurie Albert in the Clergy office at 610-667-5000 x111 or lalbert@harzientemple.org.

Do You Need The Caring Connection?

We would like to hear from you if you have a need in your good times and bad. We encourage any congregant to contact us if you know of a fellow congregant who is ill or has had a loss. Please don't assume we know. Call Laurie Albert, 610-667-5000, ext 111 or lalbert@harzientemple.org.

Golden Slipper Afternoon Class: The Birth of Israel: Four Approaches with Dr. Ely Levine

Mondays, October 30; November 6, 20, 27 – 12:30-1:30 PM (Bring a dairy lunch to eat before class)
Course Fee: \$30 – Adath Israel, 250 N. Highland Avenue in Merion Station, PA

The Exodus from Egypt is the founding story of the people of Israel. The rich text of Exodus 1-15 can be examined from different perspectives. Each of these seeks information from the details, resolving difficulties in the text and adding layers of meaning. In four sessions, we will understand why the text is written the way it is, what may have happened and how we learn about that, and the implication for Israelite and later Jewish tradition.

INNOVATION UPDATE FROM **ISRAEL IDEAS** Israeli Tech Helps Mexican Rescuers Locate Quake Victims

Radio-wave technology developed by Israeli firm Camero-Tech that can "see" through solid walls is helping rescue workers in Mexico search through rubble for buried victims. Amir Beeri, the CEO of the firm said, "We got reports from our representative in Mexico that our technology is being used there by the rescue workers and he sent us TV images that show our systems in use." The company's "sense-through-the-wall" imaging technology uses radio waves to map the layout of areas that are blocked by bricks or any other material. The radio waves penetrate the rubble and get signals back from within. These signals are then analyzed by powerful algorithms which are able to detect in real time if there is movement or breathing within the destruction, indicating there is someone alive that needs to be rescued. The system also allows users to pinpoint the location of the person or people trapped within the building, even if they are unconscious, Beeri said.
